1. Product and Company Identification

Product Code: ACSA35.1
Product Name: Citristrip Safer Paint and Varnish Stripper Aerosol

Manufacturer Information

Company Name: W. M. Barr
2105 Channel Avenue
Memphis, TN 38113

Phone Number: (901)775-0100
Emergency Contact: 3E 24 Hour Emergency Contact (800)451-8346
Information: W.M. Barr Customer Service (800)398-3892

Preparer Name: W.M. Barr EHS Dept (901)775-0100

3. Hazards Identification

Emergency Overview

Do not puncture, incinerate or store above 120 degrees F.

OSHA Regulatory Status:

This material is classified as hazardous under OSHA regulations.

Potential Health Effects (Acute and Chronic)

Inhalation Acute Exposure Effects:
May cause dizziness; headache; irritation of the respiratory tract and mucous membranes; nausea; giddiness; mental confusion. Intentional misuse of this product by deliberately concentrating and inhaling can be harmful or fatal.

Skin Contact Acute Exposure Effects:
May cause irritation; itching; burning; redness; inflammation; and/or cracking. May cause dermatitis in people with sensitive skin. Individuals overexposed by inhalation or skin contact may experience blurry vision.

Eye Contact Acute Exposure Effects:
May cause irritation; redness; tearing; burns; conjunctivitis of eyes; stinging of eyes and eyelids.
Ingestion Acute Exposure Effects:
Harmful or fatal if swallowed. May cause nausea, vomiting, and gastrointestinal irritation.

Chronic Exposure Effects:
Reports have associated repeated and prolonged overexposure to solvents with neurological and other physiological damage. Repeated exposure may cause dermatitis. May cause skin irritation. Contains material that may adversely affect the developing fetus based on animal data.

Target Organs: Kidneys, Liver

**Signs and Symptoms Of Exposure**
Primary Routes of Exposure:
Inhalation, ingestion, and dermal.

**Medical Conditions Generally Aggravated By Exposure**
Pre-existing eye and skin diseases may be aggravated by overexposure.

### 4. First Aid Measures

**Emergency and First Aid Procedures**

**Inhalation:**
If user experiences breathing difficulty, move to air free of vapors. Administer oxygen or artificial respiration until medical assistance can be rendered.

**Skin Contact:**
Wash with soap and water. Get medical attention. If irritation persists, get medical attention.

**Eye Contact:**
Immediately flush with water, remove any contact lens, continue to flush with water for at least 15 minutes, then get medical attention.

**Ingestion:**
Do not induce vomiting. Call your poison control center, hospital emergency room, or physician immediately.

**Note to Physician**
Treatment of overexposure should be directed at the control of symptoms and the clinical condition of the patient.

### 5. Fire Fighting Measures

**Flammability Classification:** Level 3 Aerosol

**Flash Pt:** 193.00 F  Method Used: Setaflash Closed Cup (Rapid Setaflash)

**Explosive Limits:**
LEL: No data.  UEL: No data.

**Fire Fighting Instructions**
Self-contained respiratory protection should be provided for fire fighters fighting fires in buildings or confined areas. Stay away from heads of containers that have been exposed to intense heat or flame.

**Flammable Properties and Hazards**

FLASHPOINTE OF LIQUID CONCENTRATE: 193 F

FLASHPOINTE OF PROPELLANT: -142.5 F

**Hazardous Combustion Products**
carbon dioxide, carbon monoxide

**Extinguishing Media**
Use carbon dioxide, dry powder, water fog, or foam.
Unsuitable Extinguishing Media
None known.

6. Accidental Release Measures

Steps To Be Taken In Case Material Is Released Or Spilled
Isolate the immediate area. Prevent unauthorized entry. Eliminate all sources of ignition in area and downwind of the spill area. Stay upwind, out of low areas, and ventilate closed spaces before entering. All equipment used when handling this product must be grounded or non-sparking. Do not touch or walk through spilled material. Stop leak if you can do so without risk. Prevent entry into waterways, sewers, or confined areas. A vapor suppressing foam may be used to reduce vapors. Absorb or cover with dry earth, sand, or other non-combustible material and transfer to compatible containers. For large spills, dike ahead of the spill. Vapors may cause flash fire or ignite explosively.

Clean up: Keep unnecessary people away; isolate hazard area and deny entry. Stay upwind, out of low areas, and ventilate closed spaces before entering. Shut off ignition sources; keep flares, smoking or flames out of hazard area. Use non-sparking tools. Use proper bonding and grounding methods for all equipment and processes. Keep out of waterways. Be cautious of vapors collecting in small enclosed spaces, sewers, low lying areas, confined spaces, etc.

Small spills: Take up with sand, earth or other noncombustible absorbent material and place in a plastic container where applicable.

Large spills: Dike far ahead of spill for later disposal.

Waste Disposal: Dispose in accordance with applicable local, state and federal regulations.

7. Handling and Storage

Precautions To Be Taken in Handling
Avoid contact with eyes, skin, and clothing. Wash thoroughly after handling. A source of clean water should be kept in the immediate work area for flushing of the eyes and skin.

Keep away from heat, sparks, flame, and any other source of ignition.

Do not smoke when anywhere near this material.

Ground and bond containers when transferring material.

Do not use in confined spaces, basements, bathrooms, etc, where vapors can build up and explode if ignited by an ignition source.

Vapors are heavier than air and will collect in low areas.

Read carefully all cautions and directions on product label before use. Since empty container retains residue, follow all label warnings even after container is empty. Dispose of empty containers according to all regulations. Do not reuse this container.

Precautions To Be Taken in Storing
Replace overcap on container after each use. Store in a cool, dry place. Do not store near flames or at elevated temperatures.
8. Exposure Controls/Personal Protection

Respiratory Equipment (Specify Type)
For OSHA controlled work place and other regular users. Use only with adequate ventilation under engineered air control systems designed to prevent exceeding appropriate TLV. For occasional use, where engineered air control is not feasible, use properly maintained and properly fitted NIOSH approved respirator for organic solvent vapors. A dust mask does not provide protection against vapors.

Eye Protection
Safety glasses, chemical goggles or face shields are recommended to safeguard against potential eye contact, irritation, or injury. Contact lenses should not be worn while working with chemicals.

Protective Gloves
Wear gloves with as much resistance to the chemical ingredients as possible. Glove materials such as nitrile may provide protection. Glove selection should be based on chemicals being used and conditions of use. Consult your glove supplier for additional information. Gloves contaminated with product should be discarded and not reused.

Other Protective Clothing
Various application methods can dictate use of additional protective safety equipment, such as impermeable aprons, etc., to minimize exposure.

Engineering Controls (Ventilation etc.)
Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits.

Use only with adequate ventilation to prevent buildup of vapors. Do not use in areas where vapors can accumulate and concentrate, such as basements, bathrooms or small enclosed areas. Whenever possible, use outdoors in an open air area. If using indoors open all windows and doors and maintain a cross ventilation of moving fresh air across the work area. If strong odor is noticed or you experience slight dizziness, headache, nausea or eye-watering -- STOP -- ventilation is inadequate. Leave area immediately and move to fresh air.

Work/Hygienic/Maintenance Practices
Wash hands thoroughly after use and before eating, drinking, or smoking.

Do not eat, drink, or smoke in the work area.

Discard any clothing or other protective equipment that cannot be decontaminated.

Facilities storing or handling this material should be equipped with an emergency eyewash and safety shower.

9. Physical and Chemical Properties

Physical States: [ X ] Gas  [ X ] Liquid  [ ] Solid
Melting Point: No data.
Boiling Point: 310.00 F - 437.00 F
Autoignition Pt: No data.
Flash Pt: 193.00 F  Method Used: Setaflash Closed Cup (Rapid Setaflash)
Explosive Limits: LEL: No data.  UEL: No data.
Specific Gravity (Water = 1): 1.07
Density: 8.93 LB/GL
Bulk density: No data.
Vapor Pressure (vs. Air or mm Hg): No data.
Vapor Density (vs. Air = 1): No data.
Evaporation Rate (vs Butyl Acetate=1): < 1
Solubility in Water: 44%
Percent Volatile: N.D.
VOC / Volume: 49.3000 % WT
Heat Value: No data.
Particle Size: No data.
Corrosion Rate: No data.
pH: No data.
Appearance and Odor
Opaque, orange/tan, smooth, viscous liquid

10. Stability and Reactivity

Stability: Unstable [ ] Stable [ X ]
Conditions To Avoid - Instability
No data available.
Incompatibility - Materials To Avoid
Incompatible with strong oxidizers, acids, bases, and alkalies.

Hazardous Decomposition Or Byproducts
Thermal decomposition may produce carbon monoxide, carbon dioxide; oxides of nitrogen; acidic smoke; and fumes.
Hazardous Polymerization: Will occur [ ] Will not occur [ X ]
Conditions To Avoid - Hazardous Polymerization
No data available.

11. Toxicological Information

This product has not been tested as a whole.

Carcinogenicity/Other Information
No data available.

12. Ecological Information

No information available for this product as a whole.

13. Disposal Considerations

Waste Disposal Method
Dispose in accordance with applicable local, state, and federal regulations. Keep out of sewers, drains, and bodies of water.
14. Transport Information

LAND TRANSPORT (US DOT)

DOT Proper Shipping Name: AEROSOLS

Level 3 Aerosol

DOT Hazard Class: 2.1

DOT Hazard Label: FLAMMABLE GAS

UN/NA Number: UN1950

Additional Transport Information

For D.O.T. information, contact W.M. Barr Technical Services at 1-800-398-3892.

The supplier may apply one of the following exceptions: Combustible Liquid, Consumer Commodity, Limited Quantity, Viscous Liquid, Does Not Sustain Combustion, or others, as allowed under 49CFR Hazmat Regulations. Please consult 49CFR Subchapter C to ensure that subsequent shipments comply with these exceptions.
