4.1. Description of first aid measures

Inhalation

Remove affected person to fresh air; wash mouth and nasal passages with water repeatedly; if breathing difficulties persist seek medical attention.

Skin

Wash contacted area with soap and water; DO NOT attempt to neutralize with chemical agents; if irritation persists, seek medical attention.

Eye

Remove contact lenses. Immediately flush eyes for 15 minutes in clear running water while holding eyelids open; seek medical attention immediately.

Ingestion

If swallowed, call a physician or Poison Control Center immediately. May produce CNS depression. Do not induce vomiting unless directed to do so by medical personnel. Do not give anything by mouth to an unconscious or convulsing person.

4.2. Most important symptoms and effects, both acute and delayed

INHALATION: Inhalation of mists or vapors may cause irritation to upper respiratory tract and mucous membranes. May cause headache, dizziness, nausea, vomiting and malaise.

SKIN: Liquid is mildly irritating to the skin. Prolonged skin contact may result in skin irritation and dermatitis.

EYES: Liquid is severely irritating to the eyes. High vapour concentrations are also irritating.

INGESTION: May produce CNS depression.

SECTION 5: FIRE-FIGHTING MEASURES

5.1. Extinguishing media

Carbon dioxide, water fog, dry chemical, chemical foam.

5.2. Special hazards arising from the substance or mixture

Closed containers can explode due to build-up of pressure when exposed to extreme heat. Water spray can be used to reduce the intensity of flames and to dilute spills to non-flammable mixture.

5.3. Advice for fire-fighters

Self-contained respiratory equipment; cool containers to prevent pressure build-up and possible explosion when exposed to extreme heat. Vapors from this product may travel or be moved by air currents and be ignited by pilot lights, other flames, smoking, sparks, heaters, electrical equipment, static discharges or other ignition sources at locations distant from handling point. Vapors are heavier than air.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1. Personal precautions, protective equipment and emergency procedures

FLAMMABLE. Evacuate and ventilate area; confine and absorb into absorbent; place material into approved containers for disposal

6.2. Environmental precautions

Do not discharge into lakes, ponds, streams or public waters.

6.3. Methods and material for containment and cleaning up

Confine and absorb into absorbent; place material into approved containers for disposal.

SECTION 7: HANDLING AND STORAGE

7.1. Precautions for safe handling

Flammable. Keep this and other chemicals out of reach of children. Avoid inhaling concentrated fumes or vapors.

7.2. Conditions for safe storage, including any incompatibilities

Keep containers closed when not in use. Protect from extreme temperatures. It should be stored in tightly closed containers in a cool, well-ventilated area.

7.3. Specific end use(s)

None identified
