

# **Safety Data Sheet**

Issue Date: 02-Sept.-2014 Revision Date: 01-June-2015 Version 1

## 1. IDENTIFICATION

Product Identifier

Product Name Coastal Premium Multi-Purpose EP 2 Grease

Other means of identification

**SDS #** WUI-064

Recommended use of the chemical and restrictions on use

Recommended Use Lubricating grease

Details of the supplier of the safety data sheet

**Supplier Address** 

Warren Oil Company 915 E. Jefferson Ave. West Memphis, AR 72301

**Emergency Telephone Number** 

Company Phone Number 1-800-428-9284

Emergency Telephone (24 hr) CHEMTREC 1-800-424-9300 (North America) 1-703-527-3887 (International)

# 2. HAZARDS IDENTIFICATION

Appearance Amber semi-solid to solid Physical State Semi-solid to solid Odor Mild petroleum

## Classification

Skin corrosion/irritation	Category 2
Serious eye damage/eye irritation	Category 2

# Signal Word Warning

# **Hazard Statements**

Causes skin irritation
Causes serious eye irritation

## <u>Precautionary Statements - Prevention</u>

Wash face, hands and any exposed skin thoroughly after handling Wear protective gloves/protective clothing/eye protection/face protection

## **Precautionary Statements - Response**

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention

IF ON SKIN: Wash with plenty of soap and water Take off contaminated clothing and wash it before reuse If skin irritation occurs: Get medical advice/attention

#### Other Hazards

Harmful to aquatic life with long lasting effects.

#### **Unknown Acute Toxicity**

2.25% of the mixture consists of ingredient(s) of unknown toxicity

# 3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS No	Weight-%
Severely Hydrotreated Heavy Naphthenic	64742-52-5	70-80
Petroleum Oil		
Residual oils (petroleum), hydrotreated	64742-57-0	1-10
Zinc Alkyl Dithiophosphate	68649-42-3	<5
Lithium Hydroxide Solution	1310-66-3	<5

<sup>\*\*</sup>If Chemical Name/CAS No is "proprietary" and/or Weight-% is listed as a range, the specific chemical identity and/or percentage of composition has been withheld as a trade secret.\*\*

## 4. FIRST-AID MEASURES

#### **First Aid Measures**

Eye Contact Rinse cautiously with water for several minutes. Remove contact lenses, if present and

easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

**Skin Contact** Wash with plenty of soap and water. Take off contaminated clothing and wash it before

reuse. If skin irritation occurs: Get medical advice/attention.

Inhalation Vaporization is not expected at ambient temperatures. This material is not expected to

cause inhalation-related disorders under anticipated conditions of use. In case of

Revision Date: 01-June-2015

overexposure, move the person to fresh air.

**Ingestion** Do not induce vomiting unless directed to by a physician. Rinse out mouth with water.

Never give anything by mouth to a person who is not fully conscious. Allow small quantities to pass through the digestive system. If large amounts are swallowed or irritation of

discomfort, seek medical attention immediately.

#### Most important symptoms and effects

Symptoms Causes skin irritation. Causes serious eye irritation. No significant adverse health effects

are expected to occur upon short term exposure at ambient temperatures. At elevated temperatures, product vapor may cause respiratory tract irritation. Repeated or prolonged overexposure to product mists can result in respiratory tract inflammation and an increased risk of infection. This material can cause a laxative effect. If swallowed in large quantities,

this material can obstruct the intestine.

## Indication of any immediate medical attention and special treatment needed

Notes to Physician Skin: In the event of injection in underlying tissue, immediate treatment should include

extensive incision, debridement and saline irrigation. Inadequate treatment can result in ischemia and gangrene. Early symptoms may be minimal. Ingestion: Check for possible

bowel obstruction with ingestion of large quantities of material.

## 5. FIRE-FIGHTING MEASURES

Revision Date: 01-June-2015

#### **Suitable Extinguishing Media**

Use dry chemical, foam, carbon dioxide or water fog.

Unsuitable Extinguishing Media Not determined.

#### Specific Hazards Arising from the Chemical

Water or foam may cause frothing. Carbon dioxide and inert gas can displace oxygen. Use caution when applying carbon dioxide or inert gas in confined spaces.

**Hazardous Combustion Products** Carbon dioxide, carbon monoxide, smoke, fumes, unburned hydrocarbons and oxides of sulfur, phosphorus, zinc and/ or nitrogen.

#### Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Fight the fire from a safe distance in a protected location. Open any masses with a water stream to prevent reignition due to smoldering. Cool surface with water fog. Molten material can form flaming droplets if ignited. Use of water on product above 100°C (212°F) can cause products to expand with explosive force. Do not allow liquid runoff to enter sewers or public waters.

## 6. ACCIDENTAL RELEASE MEASURES

#### Personal precautions, protective equipment and emergency procedures

Personal Precautions Do not touch damaged containers or spilled material unless wearing appropriate protective

clothing. Slipping hazard; do not walk through spilled material.

#### Methods and material for containment and cleaning up

Methods for Containment See Section 12 for additional Ecological Information. Prevent entry into waterways or

sewers.

Methods for Clean-Up For small spills, absorb or cover with dry earth, sand or other inert non-combustible

absorbent material and place into waste containers for lateral disposal. Contain large spills to maximize product recovery or disposal. In urban areas, clean up spill as soon as possible. In natural environments, seek clean up advice from specialists to minimize physical habitat damage. This material will float on water. Absorbent pads are similar

materials can be used.

## 7. HANDLING AND STORAGE

## Precautions for safe handling

Advice on Safe Handling Handle in accordance with good industrial hygiene and safety practices. Wash face, hands,

and any exposed skin thoroughly after handling. Wear protective gloves/protective clothing

and eye/face protection.

## Conditions for safe storage, including any incompatibilities

Storage Conditions Do not pressurize, cut, weld, braze, solder, drill, grind or expose such containers to heat,

flame, sparks, static electricity, or other sources of ignition; they may explode. Empty containers may contain product residue that can ignite with explosive force. Keep container tightly closed. Store in a cool, dry, well-ventilated area. Store only in approved containers. Do not store with strong oxidizing agents. Do not store at elevated temperatures. Avoid

storing product in direct sunlight for extended periods of time.

Incompatible Materials Strong oxidizing agents.

# 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### **Exposure Guidelines**

Chemical Name	ACGIH TLV	OSHA PEL	NIOSH IDLH
Severely Hydrotreated Heavy Naphthenic	TWA: 5 mg/m <sup>3</sup> (oil mist)	TWA: 5mg/m <sup>3</sup> (oil mist)	TWA: none estab.
Petroleum Oil	STEL: 10 mg/m <sup>3</sup> (oil mist)	STEL: none estab.	STEL: none estab.
64742-52-5			

#### **Appropriate engineering controls**

**Engineering Controls** 

Ventilation controls are not normally required under anticipated conditions of use. Provide exhaust ventilation or other engineering controls if airborne mists or vapors concentrations exceed recommended occupational exposure limits listed. An eye wash station and safety shower should be located near work-station.

Revision Date: 01-June-2015

#### Individual protection measures, such as personal protective equipment

Eye/Face Protection Safety glasses equipped with side shields are recommended as a minimum protection in

industrial settings. Wear goggles if splashing or spraying is anticipated. Wear goggles and face shield if material is heated above 125°F (51°C). Have suitable eye wash water

available.

frequent or prolonged contact is expected. Use heat-protective gloves when handling product at elevated temperatures. Use clean protective clothing if splashing or spraying conditions are present. Protective clothing may include long-sleeve outer garment, apron, or lab coat. If significant contact occurs, remove oil-contaminated clothing as soon as possible and promptly shower. Launder contaminated clothing before reuse or discard. Wear heat protective boots and protective clothing when handling material at elevated

temperatures.

**Respiratory Protection** The need for respiratory protection is not anticipated under normal use conditions and with

adequate ventilation. If elevated airborne concentrations above applicable workplace exposure levels are anticipated, a NIOSH-approved organic vapor respirator equipped with

a dust/mist prefilter should be used.

General Hygiene Considerations Handle in accordance with good industrial hygiene and safety practice.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

#### Information on basic physical and chemical properties

Physical State Semi-solid to solid

AppearanceAmber semi-solid to solidOdorMild petroleumColorNot determinedOdor ThresholdNot determined

<u>Property</u> <u>Values</u> <u>Remarks • Method</u>

pH Not available

Melting Point/Freezing PointNot availableBoiling Point/Boiling RangeNot available

Flash Point 238 °C / 460 °F Cleveland Open cup
Evaporation Rate Not determined

Flammability (Solid, Gas)
Upper Flammability Limits
Not available
Not available

**Vapor Pressure** <0.001 kPa (<0.01 mm Hg) @ 20°C (68°F)

Vapor Density >10 (Air=1)

**Specific Gravity** (Water = 1)

Water Solubility Negligible solubility in cold water

Solubility in other solvents Not determined **Partition Coefficient** Not determined **Auto-ignition Temperature** Not available **Decomposition Temperature** Not determined **Kinematic Viscosity** 187 cSt

**Dynamic Viscosity** Not determined

**Explosive Properties** Not determined **Oxidizing Properties** Not determined

# 10. STABILITY AND REACTIVITY

@ 40°C (104°F)

#### Reactivity

Not reactive under normal conditions.

#### **Chemical Stability**

Stable under recommended storage conditions.

#### **Possibility of Hazardous Reactions**

None under normal processing.

**Hazardous Polymerization** Not expected to occur.

#### **Conditions to Avoid**

Keep away from extreme heat, sparks, open flame and strongly oxidizing conditions.

## **Incompatible Materials**

Strong oxidizing agents.

# **Hazardous Decomposition Products**

Carbon dioxide, carbon monoxide, smoke, fumes, unburned hydrocarbons and oxides of sulfur, phosphorus, zinc and/ or nitrogen.

# 11. TOXICOLOGICAL INFORMATION

## Information on likely routes of exposure

**Product Information** 

**Eye Contact** Causes serious eye irritation.

**Skin Contact** Causes skin irritation.

Inhalation Do not inhale.

Ingestion Do not ingest.

#### **Component Information**

Chemical Name	Oral LD50	Dermal LD50	Inhalation LC50
Hydrogenated Castor Oil – (flake or	> 10 g/kg (Rat)	-	-
solid)			
64742-58-1			
Lithium Hydroxide Solution	= 120 mg/kg (Rat)	-	= 0.96 mg/L (Rat) 4 h
1310-66-3			

# Information on physical, chemical and toxicological effects

**Symptoms** Please see Section 4 of this SDS for symptoms.

## Delayed and immediate effects as well as chronic effects from short and long-term exposure

Carcinogenicity Based on the information provided, this product does not contain any carcinogens or

potential carcinogens as listed by OSHA, IARC or NTP.

**Numerical measures of toxicity** 

Not determined

**Unknown Acute Toxicity** 2.25% of the mixture consists of ingredient(s) of unknown toxicity.

# 12. ECOLOGICAL INFORMATION

#### **Ecotoxicity**

Harmful to aquatic life with long lasting effects.

## **Component Information**

Chemical Name	Algae/aquatic plants	Fish	Toxicity to microorganisms	Crustacea
Severely Hydrotreated Heavy Naphthenic Petroleum Oil 64742-52-5		5000: 96 h Oncorhynchus mykiss mg/L LC50		1000: 48 h Daphnia magna mg/L EC50
Hydrogenated Castor Oil – (flake or solid) 8001-78-3		10000: 96 h Brachydanio rerio mg/L LC50		
Zinc Alkyl Dithiophosphate 68649-42-3		1.0 – 5.0: 96 h Pimephales promelas mg/L LC50 statiac 10.0 – 35.0: 96 h Pimephales promelas mg/L LC50 semi-static		1 – 1.5: 48 h Daphnia magna mg/L EC50

## Persistence/Degradability

Not determined.

#### **Bioaccumulation**

Not determined.

#### **Mobility**

Not determined

# **Other Adverse Effects**

Not determined

# 13. DISPOSAL CONSIDERATIONS

## **Waste Treatment Methods**

Disposal of Wastes Disposal should be in accordance with applicable regional, national and local laws and

regulations.

Contaminated Packaging Disposal should be in accordance with applicable regional, national and local laws and

regulations.

# California Hazardous Waste Status

Chemical Name	California Hazardous Waste Status
Zinc Alkyl Dithiophosphate	Toxic
68649-42-3	

# 14. TRANSPORT INFORMATION

Note Please see current shipping paper for most up to date shipping information, including

exemptions and special circumstances.

**DOT** Not regulated

<u>IATA</u> Not regulated

<u>IMDG</u>

Marine Pollutant This material may meet the definition of a marine pollutant.
