FIRST AID MEASURES				
Eye Contact	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.			
Skin contact	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advise.			
Inhalation	If overcome by vapor, move person to fresh air. If person is not breathing, call 911 or an ambulance, then provide artifical respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advise.			
Ingestion	Call a poison control center or doctor for treatment advice. Have person sip a glass of wate if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.			
Most important symptoms a	and effects, both acute and delayed			
Symptoms	Acute: Prolonged inhalation of concentrated vapor or mist may cause headaches, dizzines and nausea. Prolonged and repeated contact with skin may cause irritation and reddening. Contact with eyes causes irritation.
