# PRODUCT NAME: HTH EXTENDED SKIMMER STICKS

EPA Registration Number: 1258-1337

# **1. PRODUCT AND COMPANY IDENTIFICATION**

Arch Chemicals, Inc. 501 Merritt 7 PO Box 5204	REVISION DATE: SUPERCEDES:	05/01/2013 09/27/2010
Norwalk, CT 06856-5204	MSDS Number: SYNONYMS:	000000012139 Trichloroisocyanuric Acid, TCCA, Trichlor
	CHEMICAL FAMILY: DESCRIPTION / USE FORMULA:	Chloroisocyanurates Swimming pool water treatment None established

# 2. HAZARDS IDENTIFICATION

OSHA Hazard Classification:	Corrosive to eyes and skin, Lung toxin, Toxic by ingestion, Toxic by inhalation (dust)., Oxidizer		
Routes of Entry: Chemical Interactions Medical Conditions Ag		Inhalation, skin, eyes, ingestion No known or reported interactions. Asthma, respiratory and cardiovascular disease	
Human Threshold Res	sponse Data		
Odor Threshold	Not establis	hed for product.	

Irritation Threshold Not established for product.

#### Hazardous Materials Identification System / National Fire Protection Association Classifications

Hazard Ratings :	<u>Health</u>	<u>Flammability</u>	Physical / Instability	<u>PPI / Special</u> hazard.
HMIS	3	0	2	
NFPA	2	0	2	NFPA Oxidizer Class: Meets the criteria of an NFPA Class 1 Oxidizer

#### Immediate (Acute) Health Effects

Innineulate (Acute) Health Lifect	
Inhalation Toxicity:	This product in the form of solid tablets is not an inhalation hazard.
	However, if dust is created and inhaled, inhalation of this material in dust
	or vapor form is irritating to the nose, mouth, throat and lungs. It may
	also cause burns to the respiratory tract with the production of lung
	edema which can result in shortness of breath, wheezing, choking, chest
	pain, and impairment of lung function. Inhalation of high concentrations
	can result in permanent lung damage. Toxic by inhalation (dust).
Skin Toxicity:	DRY MATERIAL CAUSES MODERATE SKIN IRRITATION. WET
Skill Toxicity:	MATERIAL CAUSES SKIN BURNS. Dermal exposure to dry material
	causes moderate skin irritation characterized by redness and swelling.
	Dermal exposure to wet material can cause severe irritation and/or
	burns characterized by redness, swelling and scab formation. Prolonged
	skin exposure may cause permanent damage.
Eye Toxicity:	CAUSES BURNS TO EYES. Severe irritation and/or burns can occur
	following eye exposure. Direct contact may cause impairment of vision
	and corneal damage.
Ingestion Toxicity:	Toxic if swallowed. CAUSES BURNS TO DIGESTIVE TRACT. Irritation
-	and/or burns can occur to the entire gastrointestinal tract, including the
	stomach and intestines, characterized by nausea, vomiting, diarrhea,
	abdominal pain, bleeding, and/or tissue ulceration. Ingestion may cause
	severe damage to the gastrointestinal tract with the potential to cause
	perforation.
Acute Target Organ Toxicity:	This product is corrosive to all tissues contacted and upon inhalation,
Addie Farger Organ Toxiony.	may cause irritation to mucous membranes and respiratory tract., The
	dry material is irritating to the skin. However when wet, it will produce
	burns to the skin.

#### Prolonged (Chronic) Health Effects

Carcinogenicity:	This product is not known or reported to be carcinogenic by any reference source including IARC, OSHA, NTP or EPA.
Reproductive and Developmental Toxicity:	Not known or reported to cause reproductive or developmental toxicity.

Inhalation:	There are no known or reported effects from chronic exposure except for effects similar to those experienced from acute exposure.
Skin Contact:	Effects similar to those from acute exposure. In addition, chronic exposure to wet material may cause effects secondary to tissue destruction.
Ingestion:	There are no known or reported effects from chronic ingestion except for effects similar to those experienced from single exposure. The acute corrosivity of this product, makes chronic ingestion of significant amounts unlikely.
Sensitization:	This material tested negative for skin sensitization in animals.
Chronic Target Organ Toxicity:	There are no known or reported target organ effects from chronic exposure., Toxicological investigation indicates it does not produce significant effects from chronic exposure.
Supplemental Health Hazard Information :	No additional health information available.

# **3. COMPOSITION / INFORMATION ON INGREDIENTS**

CAS OR CHEMICAL NAME	<u>CAS #</u>	<u>% RANGE</u>
TRICHLORO-S-TRIAZINETRIONE	87-90-1	95 - 99
POLYTETRAFLOUROETHYLENE	9002-84-0	1.75 - 2.5

### 4. FIRST AID MEASURES

General Advice:	Call a poison control center or doctor for treatment advice. For 24-hour emergency medical assistance, call Arch Chemical Emergency Action Network at 1-800-654-6911. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
Inhalation:	IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
Skin Contact:	IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
Eye Contact:	IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Ingestion:IF SWALLOWED: Call a poison control center or doctor immediately for treatment<br/>advice. Have person sip a glass of water if able to swallow. Do not induce<br/>vomiting unless told to do so by a poison control center or doctor. Do not give<br/>anything by mouth to an unconscious person.Notes to Physician:Probable mucosal damage may contraindicate the use of gastric lavage.

# **5. FIRE FIGHTING MEASURES**

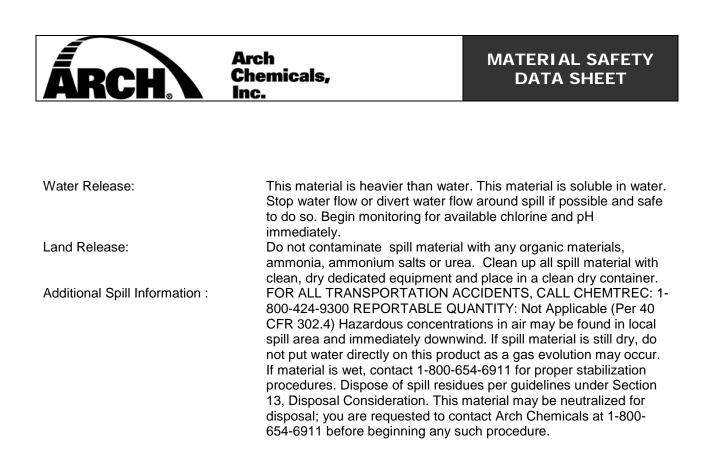

Flammability Summary (OSHA):	Product is not known to be flammable, combustible or pyrophoric., NFPA Oxidizer Class: Meets the criteria of an NFPA Class 1 Oxidizer
Flammable Properties	
Flash Point:	Not applicable
Autoignition Temperature:	Not applicable
Fire / Explosion Hazards:	During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion. Closed containers may
	explode (due to the build up of steam pressure) when exposed to
	extreme heat.
Extinguishing Media:	Water only.
Fire Fighting Instructions:	Use water to cool containers exposed to fire. On small fires, use water spray or fog. On large fires, use heavy deluge or fog streams.
	Flooding amounts of water may be required before extinguishment
	can be accomplished. Do not use dry extinguishers containing
	ammonium compounds.
Upper Flammable / Explosive Limit,	••
Lower Flammable / Explosive Limit,	% in air: Not applicable

### 6. ACCIDENTAL RELEASE MEASURES

Personal Protection for Emergency<br/>Situations:Response to a large quantity spill (100 pounds or greater) or when<br/>dusting or decomposition gas exposure could occur requires the use<br/>of a positive pressure full face supplied air repirator or self contained<br/>breathing apparatus (SCBA), chemical resistant gloves, coveralls<br/>and boots. In case of fire, this personal protective equipment should<br/>be used in addition to normal fire fighter equipment.Compatible<br/>materials for response to this material are: neoprene.Protection<br/>concerns must also address the following: If this material becomes<br/>damp/wet or contaminated in a container, the formation of nitrogen<br/>trichloride gas may occur and an explosive condition may exist.Spill Mitigation Procedures<br/>Air Release:Vapors may be suppressed by the use of water fog.

HTH EXTENDED SKIMMER STICKS REVISION DATE : 05/01/2013

Page 4 of 12

### 7. HANDLING AND STORAGE

Handling:	Do not take internally. Avoid contact with skin, eyes and clothing. Upon contact with skin or eyes, wash off with water. Avoid breathing
Storage:	dust, mist, vapor or gas. Store in a cool dry ventilated location, away from sources of ignition or other incompatible conditions and chemicals. Keep container(s) closed. Avoid creating dusts.
Shelf Life Limitations:	Indefinite. Available chlorine loss can be as little as 0.1% per year at ambient temperatures.
Incompatible Materials for Storage:	organic materials Reducing agents nitrogen containing materials oxidizers acids Bases (Incompatible materials for packaging: paper, cardboard)
Do Not Store At temperatures Above	

### 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Ventilation:

Local exhaust ventilation or other engineering controls are normally required when handling or using this product to keep airborne exposures below the TLV, PEL or other recommended exposure limit.

Protective Equipment for Routine Use of Product

Respiratory Protection :	Wear a NIOSH approved respirator if levels above the exposure limits are possible.
Respirator Type :	A NIOSH approved full-face air purifying respirator equipped with combination chlorine/P100 cartridges. Air purifying respirators should not be used in oxygen deficient or IDLH atmospheres or if exposure concentrations exceed ten (10) times the published limit.
Skin Protection :	Wear impervious gloves to avoid skin contact. A full impervious suit is recommended if exposure is possible to a large portion of the body.
Eye Protection:	Use chemical goggles.
Protective Clothing Type:	Nitrile, Natural rubber, Neoprene (This includes: gloves, boots, apron, protective suit)
General Protective	An eye wash and safety shower should be provided in the immediate work
Measures:	area.
Exposure Limit Data	

CHEMICAL NAME	CAS #	Name of Limit	<u>Exposure</u>
TRICHLORO-S-TRIAZINETRIONE	87-90-1	ARCH-ROEG*	0.5 mg/m3 TWA

\*ARCH-ROEG: Arch Recommended Occupational Exposure Guideline.

# **10. STABILITY AND REACTIVITY**

Stability and Reactivity Summary:	May be unstable at temperatures above 225 Deg. C (437 Deg. F) Not sensitive to mechanical shock. Not sensitive to static discharge. Product will not undergo hazardous polymerization. Product is an oxidizer.
Conditions to Avoid:	Sparks, open flame, other ignition sources, and elevated temperatures., Contact with small amounts of water may result in an exothermic reaction with the liberation of toxic fumes., Damp or slightly wet product (will evolve nitrogen trichloride), May be
Chemical Incompatibility:	unstable at temperatures above 225 Deg. C (437 Deg. F) organic materials, Oils, Grease, Sawdust, Reducing agents, nitrogen-containing compounds, oxidizers, acids, Bases, Dry fire extinguishers containing ammonium compounds
Hazardous Decomposition Products:	Nitrogen trichloride, Chlorine, nitrous oxides, cyanates, Carbon monoxide, Carbon dioxide
Decomposition Temperature:	225 DEG°C - , 437 DEG°F-

# **11. TOXICOLOGICAL INFORMATION**

Component Animal Toxicology Oral LD50 value: TRICHLORO-S-LD50 = 490 mg/kg Rat TRIAZINETRIONE Component Animal Toxicology Dermal LD50 value: TRICHLORO-S-LD50 > 2,000 mg/kg Rabbit TRIAZINETRIONE Component Animal Toxicology Inhalation LC50 value: TRICHLORO-S-LC50 1 h (aerosol dust), (Nose Only) Approximately 2.16 MG/L Rat TRIAZINETRIONE TRICHLORO-S-LC50 4 h (aerosol dust), (Nose Only) Approximately 0.54 MG/L Rat TRIAZINETRIONE

### **13. DISPOSAL CONSIDERATIONS**

CARE MUST BE TAKEN TO PREVENT ENVIRONMENTAL CONTAMINATION FROM THE USE OF THE MATERIAL. THE USER OF THE MATERIAL HAS THE RESPONSIBILITY TO DISPOSE OF UNUSED MATERIAL, RESIDUES AND CONTAINERS IN COMPLIANCE WITH ALL RELEVANT LOCAL, STATE AND FEDERAL LAWS AND REGULATIONS REGARDING TREATMENT, STORAGE AND DISPOSAL FOR HAZARDOUS AND NONHAZARDOUS WASTES.

Waste Disposal Summary : If this product becomes a waste, it meets the criteria of a hazardous waste as defined under 40 CFR 261 and would have the following EPA hazardous waste number: D001.If this product becomes a waste, it will be a hazardous waste which is subject to the Land Disposal restrictions under 40 CFR 268 and must be managed accordingly.

Disposal Methods : As a hazardous solid waste, it must be disposed of in accordance with local, state and federal regulations.

Potential US EPA Waste Codes : D001

### **14. TRANSPORT INFORMATION**
