DECT 6.0,4HS,Range Boost,Noise Reduc,250Call Block,DK,TAD,Large LCD,Voic

KX-TGF544B Expandable Cordless Phone

This sleek, four-handset home and home office system makes everyday calling smarter, quicker and more convenient. Easily communicate throughout the house with Voice Paging and block up to 250 unwanted numbers with the touch of a button. It can also tell you who's calling with Talking Caller ID in English and Spanish, alert you when your handset's power is low and includes a headset jack. Expandable to six handsets.

Block Bothersome Callers

With a dedicated Call Block button on each handset, it's easy to block telemarketers, robocalls and other unwanted caller numbers. One button registers up to 250 caller numbers - even while the phone is ringing or while you're talking or listening.

Bi-lingual Talking Caller ID

When the phone rings on one side of the room and you're on the other, Panasonic's advanced Talking Caller ID in English and Spanish and Text ID tells you who is calling with text-to-speech announcements from speakers in the base unit and handsets.

Beyond Intercom

Wake kids for school in the morning and let everyone know when dinner is ready in the evening with Panasonic's exclusive Voice Paging. More than a conventional intercom, VP makes it easy to send clear, simultaneous announcements to every handset in the house, even when family members don't respond.

Power When the Power Goes Out

Included rechargeable backup batteries keep you connected when the power goes out. With a fully charged handset in the base unit, you'll have power for up to 12 hours talk time and 7 days standby for calls using other cordless handsets in the house.

Talking Low Battery Alert

Now, when any of your handsets are running low on power, the handsets tell you. And as an added convenience, a large, high-visible battery status icon on the handset LCD lets you know as well.

Hear Calls from Noisy Places

Whether someone is calling from a busy city street or from a raucous room, Noise Reduction automatically suppresses background interference while also enhancing voice tones for clearer, more comfortable conversations.

Large Backlit Handset Display

Large 1.8-inch high-contrast white backlit handset LCDs, enlarged, easier to see and use dial keys, and smart function control buttons make home and home office call management quicker and more convenient for everyone.

Baby Monitor

Place a handset in the baby's room and keep another handset with you. When the baby wakes or starts crying, the handset in the baby's room instantly notifies your handset or any phone or cellphone number you store in the handset.

Additional Calling Conveniences

With the Panasonic KX-TGF544B system, you can program and store up to 100 numbers in your phonebook, enjoy the time-saving convenience of nine speed dial settings and handset-to-handset intercom. Handset provides talk time up to 12 hours and up to 7 days of standby time.

Accessories

The KX-TGF544B base unit is wall-mountable and comes with matching wall bracket and screws. Two rechargeable AAA-size Ni-MH batteries are also included, plus a handy belt clip is included to comfortably carry each cordless handset with you throughout the home or office.
