Microcomputer Controlled Multi-Cooker, White / Silver SR-ZC075W

Features:

Make great meals even better! Few foods make great meals even better than rice and whether you favor white, brown or all of them, the Panasonic Microcomputer Controlled Multi-Cooker makes rice perfection easy and fully automatic. Its convenient 4-cup uncooked rice capacity — 8 cups cooked — is ideal for smaller amounts of rice any time. Plenty for singles, couples and small gatherings.

Time saving multi-cooking modes! Eight different pre-programmed menus and the easy-to-use display and touch controls make it quick and simple to select and set the cooking menu options you want. One-touch buttons let you choose white or brown rice and quinoa. Tight on time? Press quick cook to enjoy great rice in a hurry. The Panasonic SR-ZC075W also functions as a high-quality slow cooker for perfect oatmeal and other hot cereals, plus incredible soups, yogurts, flavorful stews and more. You can even bake a cake with this unit!

Intelligent microcomputer heating! For each cooking mode, Panasonic's intelligent microcomputer heating control ensures delicious results. As individual styles and types of rice and other foods are cooking, this distinct cooking advantage continually monitors temperature to automatically adjust and fine tune both cooking time and temperature. The result is precise and evenly cooked meals.

Fluorine inner pan for easy cooking and cleaning! The super strong, super-resilient, non-stick black fluorine-coated inner pan is designed to withstand years of continual heat and use. This advanced coating surface helps distribute and retain heat more evenly for better taste and texture. Plus, it makes after-meal cleanup quick and easy.

Ready when you are! Whichever rice or other foods you prepare, a super convenient keep-warm feature maintains freshness and the ideal serving temperature for up to 12 hours.
