### Safety Data Sheet (SDS)

This SDS is intended to comply with OSHA's Hazard Communication Standard, 29 CFR 1910 1200 (revised in 2012), specifically 29 CFR §1910.1200 Appendix D – Minimum Information for Safety Data Sheets (Mandatory). This revised OSHA standard incorporates guidance from the United Nations – Globally Harmonized System (GHS) of classification and labeling of chemicals. The user is directed to rely on this OSHA standard, related regulations and briefs which must be consulted for specific requirements regarding the sound management of chemicals. This SDS attempts to provide information on chemical hazards and communicate them to workers, consumers, emergency responders and the public. It is important to know what compounds are present or have been used in this product, the hazard (if any) each might represent to human health, the environment; plus, have and understand the means to control them.

| Section 1: Identification  This section identifies the chemical on the SDS as well as the recommended uses. It also p                                   | provides the essential contact information of the supplier.                                         |                                                                          |  |  |

|                        | ection 4: First-aid Measures his section describes the initial care which should be given by untrained responders to an individual who has been exposed to the chemical. |                                                                                                                                                                   |  |  |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|
| Necessary first-aid in | nstructions by route of exposure:                                                                                                                                        |                                                                                                                                                                   |  |  |
|                        | DESCRIPTION OF THE MOST IMPORTANT SYMPTOMS OR EFFECTS, AND ANY SYMPTOMS WHICH ARE ACUTE (IMMEDIATE) OR DELAYED:                                                          | RECOMMENDATIONS FOR IMMEDIATE MEDICAL CARE AND SPECIAL TREATMENT NEEDED, WHEN NECESSARY:                                                                          |  |  |
| Inhalation             | None expected, however, certain individuals may be sensitized and experience minor nausea or headaches.                                                                  | Remove affected person to fresh air; if symptoms persist seek medical attention.                                                                                  |  |  |
| Skin Contact           | None expected, however, prolonged contact may cause irritation                                                                                                           | Remove contaminated clothing; wash affected area with soap and water; launder contaminated clothing before reuse; if irritation persists, seek medical attention. |  |  |
| Eye Contact            | May cause irritation                                                                                                                                                     | Flush with water for 15 minutes. If irritation occurs seek medical attention.                                                                                     |  |  |
| Ingestion              | May cause gastric distress, vomiting and diarrhea.                                                                                                                       | Give two glasses of water for dilution; do not induce vomiting; seek medical attention.                                                                           |  |  |

| Section 5: Fire-Fighting Measures  This section provides recommendations for fighting a fire caused by the chemical. |                                     |  |
|----------------------------------------------------------------------------------------------------------------------|-------------------------------------|--|
| Suitable Extinguishing Media: Water fog, dry chemical, chemical foam, CO2                                            | Unsuitable Extinguishing Media: N/A |  |
| Specific Hazards Arising from the Chemical: None Known                                                               |                                     |  |
| Special Protective Equipment and Precautions for Fire-Fighters: Wear self-contained breathing apparatus.             |                                     |  |

Section 6: Accidental Release Measures This section provides recommendations on the appropriate response to spills, leaks, or releases, including containment and cleanup practices to prevent or minimize exposure to people, properties, or the environment. It may also include recommendations distinguishing between responses for large and small spills where the spill volume has a significant impact on the hazard.

Personal Precautions, Protective Equipment, and Emergency Procedures: Refer to "Section 8 – Exposure Controls / Personal Protection"

Methods and Materials for Containment and Cleaning Up:

Wipe up with absorbent material (e.g. cloth, fleece). Scoop up into containers. Wash spill area with water.

### Section 7: Handling and Storage

This section provides guidance on the safe handling practices and conditions for safe storage of chemicals.

Precautions for Safe Handling: Keep containers closed when not in use; Protect containers from abuse; Protect from extreme exposures.

Recommendations for General Hygiene Practices: Always practice good hygiene, wash hands after contact.

Conditions for Safe Storage, Including Any Incompatibilities: Keep containers closed when not in use; Protect containers from abuse; Protect from extreme exposures.

| Section 8: Exposure Controls / Personal Protection  This section indicates the exposure limits, engineering controls, and personal protective measures which can be used to minimize worker exposure. |                                                    |  |                                                                   |  |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------|--|-------------------------------------------------------------------|--|
| OSHA Permissible Exposure Limit (PEL): N/A  ACGIH Threshold Limit Value (TLV): N/A                                                                                                                    |                                                    |  | Other exposure limit used or recommended by the manufacturer: N/A |  |
| Appropriate Engineering Controls: Not generally required                                                                                                                                              |                                                    |  |                                                                   |  |

### Section 13: Disposal Considerations (Non-Mandatory)

This section provides guidance on proper disposal practices, recycling or reclamation of the chemical(s) or its container, and safe handling practices. To minimize exposure, the reader should refer to Section 8 of this SDS.

#### Waste Disposal Method:

Dispose of waste including this product must be in accordance with local, state and Federal regulations. Products classified as non-hazardous may become hazardous waste upon contact / mixing with other products. Refer to "40 CFR § 260-299" for complete waste disposal regulations.
