MATERIAL SAFETY DATA SHEET

SECTION 1 - PRODUCT AND COMPANY IDENTIFICATION

Manufacturer's name and a	ddress:	Supplier's name and address:	
HENRY		Refer to Manufacturer	
The W.W. Henry Compa 400 Ardex Park Drive Aliquippa, PA, US 15001 Information Telephone No.	: (724) 203-5000	tp://www.wwhenry.com	
24 Hr. Emergency Tel #		255-3924 OR 1-813-248-0585 (call col	lect)
Product Identifier	ENRY 527 W	hite	
Chemical Name	: N/Ap	Chemical Family	: N/Ap
Chemical Formula	: N/Ap	Trade Name/Synonyms	: HENRY 527 White
Molecular Weight	: N/Ap	Material Use	: Polymer modified thin set mortar.
WHMIS Classification	: Class D2A (Material Class E (Corrosive M	s Causing Other Toxic Effects, Very To Naterial)	oxic Material);

SEC	CTION 2 - COMPO	OSITION/INFOR	MATION ON 1	INGRED	IENTS	
			ACGIHT	LV	OSHAPE	<u>L</u>
Ingredients	CAS#	<u>%(weight)</u>	<u>TWA</u>	<u>STEL</u>	PEL	<u>STEL</u>
Crystalline silica, quartz	14808-60-7	30.00 - 60.00	0.025 mg/m ³ (respirable)	N/Av	0.1 mg/m ³ (respirable) (final rule limit)	N/Av
Portland cement	65997-15-1	30.00 - 60.00	10 mg/m³	N/Av	15 mg/m³ (total dust); 5 mg/m³ (respirable)	N/Av
Vinyl acetate copolymer	24937-78-8	1.00 - 5.00	10 mg/m3 (Inhalable); *3 mg/m ³ (respirable)	N/Av	15 mg/m ³ (total dust); 5 mg/m ³ (respirable)	N/Av
Calcium Formate	544-17-2	0.1 - 1.00%	N/Av	N/Av	N/Av	N/Av
Glass, oxide, chemicals	65997-17-3	1.00 - 5.00	*1f/cc	N/Av	15 mg/m³ (total dust); 5 mg/m³ (respirable)	N/Av

*Note: The ACGIH TLV listed above for Glass, oxide, chemicals is for 'Synthetic vitreous fibers - Special purpose glass fibers').

This material is classified as hazardous under OSHA regulations (29CFR 1910.1200).

	SECTION 3 - HAZARDS IDENTIFICATION
	EMERGENCY OVERVIEW
	White powder. No odour.
Corrosive Ca	DANGER! ses eye burns. May cause skin burns. Contact with wet material, or moist areas of the skin, causes skin burns.
Conosive. Cau	Symptoms may be delayed. May cause respiratory irritation.
Contains ma	aterial which can cause lung damage. Possible cancer hazard - contains material which may cause cancer.
	POTENTIAL HEALTH EFFECTS
arget organs	: Lungs; eyes; Skin.
Routes of exposure	
igns and symptom	is of short-term (acute) exposure
Inhalation :	May cause severe irritation to the nose, throat and respiratory tract. Symptoms may include coughing, shortness of breath, wheezing and reduced lung function.
Skin :	Direct contact may cause mild to severe irritation with possible burns. Contact with wet material, or moist areas of the skin, causes skin burns. Skin thickening, cracking, or fissuring may also occur. Symptoms may
	be delayed.
<u></u>	Direct contact may strongly irritate or burn the eyes. Could cause blindness.
0	May cause severe irritation to the mouth, throat and stomach. Symptoms may include burning pain, vomiting and diarrhea.
Effects of long-term	(chronic) exposure
	 Prolonged inhalation may cause adverse lung effects with symptoms including coughing, mucous production and difficulty breathing. Repeated or prolonged inhalation of fine dusts may cause severe scarring of the lungs, a disease called silicosis, and alveolar proteinosis (lower lung disease). Symptoms may include coughing, shortness of breath and eventually severe respiratory impairment.
Conditions aggrava	ted by overexposure
Carcinogenic status	 Pre-existing skin, eye and respiratory disorders. Cancer hazard. See TOXICOLOGICAL INFORMATION. Section 11.

Page 3 of 6

Flame Projection Length Explosion data: Sensitivity to	: Not applicable. Flashback observed : Not applicable. mechanical impact / static discharge
	: Not available.
Suitable extinguishing media	: Dry chemical, carbon dioxide and foam. Do not use water. Contact with water may cause hydration, and formation of caustic alkaline material.
Special fire-fighting procedure	es/equipment
	: Firefighters should wear proper protective equipment and self-contained breathing apparatus with full face piece operated in positive pressure mode. Move containers from fire area if safe to do so. Water spray may be useful in cooling equipment exposed to heat and flame. After fires have been extinguished, carefully clean all equipment and surfaces exposed to fumes.
Hazardous combustion produ	
	: Sulphur oxides; calcium oxide; Carbon oxides; Calcium carbonate; Hydrogen; Calcium oxalate; formaldehyde.
	SECTION 6 - ACCIDENTAL RELEASE MEASURES
Personal precautions	: Corrosive! Wear chemically resistant personal protective equipment during cleanup. Restrict access to area until completion of clean-up. All persons dealing with clean-up should wear the appropriate chemically protective equipment. Refer to point 8 on this Safety Data Sheet, EXPOSURE CONTROLS / PERSONAL PROTECTION, for additional information on acceptable personal protective equipment.
Environmental precautions	: Do not allow product to enter waterways. Do not allow material to contaminate ground water system.
Spill response/cleanup	: Ventilate area of release. Eliminate all ignition sources. Stop spill or leak at source if safely possible. Contain material, preventing it from entering sewer lines or waterways. Using HEPA vacuum, or other dustless methods, gather up spilled material and place in suitable container for later disposal (see section 13). Avoid adding water, material becomes alkaline when wet. Notify the appropriate authorities as required.
Prohibited materials Special spill response proced	: Avoid adding water, material becomes alkaline when wet.
	 If a spill/release in excess of the EPA reportable quantity is made into the environment, immediately notify the national response center in the United States (phone: 1-800-424-8002). US CERCLA Reportable quantity (RQ): None reported.
	SECTION 7 - HANDLING AND STORAGE
Safe Handling procedures	: Corrosive! Wear chemically resistant protective equipment during handling. Use in a well-ventilated area. Training the workers on the potential health hazards associated with product vapor, dust or fume is important. Secondary inhalation exposures could occur when cleaning equipment, or when removing or laundering the clothing. Do not breathe vapours/dust. Avoid contact with skin, eyes and clothing. Keep away from heat and sources of ignition. Avoid wet or humid conditions. Keep away from acids and incompatibles. Avoid and control operations which create dust. Keep containers tightly closed when not in use. Wash thoroughly after handling.
Storage requirements	: Store in a cool, dry, well-ventilated area. No smoking in the area. Do not store near any incompatible materials (see Section 10). Storage area should be clearly identified, clear of obstruction and accessible only to trained and authorized personnel. Protect against physical damage.
Incompatible materials	: See Section 10.
Special packaging materials	: Always keep in containers made of the same materials as the supply container.
SECTION	8 - EXPOSURE CONTROLS AND PERSONAL PROTECTION

Ventilation and engineering m	neasures
	: Use general or local exhaust ventilation to maintain air concentrations below recommended exposure limits.
Respiratory protection	: Respiratory protection is required if the concentrations exceed the TLV. If the TLV is exceeded, a NIOSH/MSHA-approved respirator is advised.
Skin protection	 Impervious gloves must be worn when using this product. Advice should be sought from glove suppliers.
Eye / face protection	: Chemical goggles must be worn to prevent dusts from entering the eyes.

HENRY 527 White

MSDS Preparation Date (dd/mm/yyyy): 15/08/2011

Other protective equipment	:	Where extensive exposure to product is possible, use resistant coveralls, apron and boots to prevent contact. An eyewash station and safety shower should be made available in the immediate working area.
General hygiene consideration	s	
	:	Avoid contact with eyes, skin and clothing. Do not breathe vapours/dust. Do not eat, drink or smoke when using this product. Clean all equipment and clothing, and shower with mild soap and water to remove dusts, at end of each work shift.
Permissible exposure levels	:	For individual ingredient exposure levels, see Section 2.

S	SECTION 9 - PHYSIC	CAL AND CHEMICAL PRO	PERTIES	
Physical state	: fine powder (Solid) Appearance	: White powder.	
Odour	: No odour.	Odour threshold	: N/Av	
рН	: 10.5 - 13.0			
Boiling point	: N/Av	Specific gravity	: 2.7 - 3.2	
Melting/Freezing point	: N/Av	Coefficient of water/oil distribution		
			: N/Av	
Vapour pressure (mmHg @	⊉ 20° C / 68° F)	Solubility in water	: <75 g/L	
	: N/Av			
Vapour density (Air = 1)	: N/Av	: N/Av Evaporation rate (n-Butyl acetate = 1)		
			: N/Av	
Volatile organic Compounds (VOC's)		Volatiles (% by weight)	: N/Av	
	: N/Av			
Particle size	: N/Av	General Info.	: Weight / Gallon: N/Av	
	SECTION 10 - REA	ACTIVITY AND STABILITY	Z DATA	
Stability and reactivity		Stable under the recommended storage and handling conditions prescribed. Contact with water may cause hydration and formation of caustic calcium hydroxide.		
Hazardous polymerization	: Hazardous polym	erisation does not occur.		
Conditions to avoid	: Avoid wet or humi	d conditions. Extreme heat.		
Materials To Avoid And Inc	compatibility			
	: Acids; Oxidizing a	gents; Ammonium salts; Water. Avc	oid contact with aluminum.	

Hazardous decomposition products

5

Contact with acids may cause decomposition and release of formic acid fumes. Refer to Section 5 for additional 'Hazardous combustion products'.

SECTION 11 - TOXICOLOGICAL INFORMATION

Toxicological data

: There is no available data for the product itself, only for the ingredients. See below for individual ingredient acute toxicity data.

	LC50(4hr)	LD ₅₀		
Ingredients	<u>inh,rat</u>	oral	dermal	
Crystalline silica, quartz	N/Av	N/Av	N/Av	
Portland cement	N/Av	N/Av	N/Av	
Calcium formate	N/Av	1920 mg/kg (mouse)	N/Av	
Glass, oxide, chemicals	N/Av	N/Av	N/Av	

Carcinogenic status : This product contains Crystalline silica - Quartz. Crystalline silica - Quartz is classified as carcinogenic by IARC (Group 1), ACGIH (Group A2), NTP (Group 1) and OSHA (OSHA Select carcinogen). Contains Glass, oxide, chemicals, a form of synthetic vitreous fibers. Synthetic vitreous fibres - special purpose glass fibres are considered carcinogenic by IARC (Group 2B) and the ACGIH (Category A3).

Reproductive effects: None known.Teratogenicity: None known.

HENRY 527 White

MSDS Preparation Date (dd/mm/yyyy): 15/08/2011

Mutagenicity	: None known.
Epidemiology	: Not available.
Sensitization to material	: Portland Cement may cause an allergic skin reaction, in hypersensitive individuals possibly due to trace amounts of chromium.
Synergistic materials	: N/Av
Irritancy	: Moderately irritating to corrosive.
other important hazards	: See Section 3 for additional information.

SECTION 12 - ECOLOGICAL INFORMATION

Environmental effects	: The product should not be allowed to enter drains or water courses, or be deposited where it can affect ground or surface waters.
Important environmental of	characteristics
	: N/Av
Ecotoxicological	: No data is available on the product itself.
	SECTION 13 - DISPOSAL CONSIDERATIONS
Handling for Disposal	: Handle waste according to recommendations in Section 7.
Methods of Disposal	: Dispose in accordance with all applicable federal, state, provincial and local regulations. Contact your local, state, provincial or federal environmental agency for specific rules.
RCRA	: If this product, as supplied, becomes a waste in the United States, it may meet the criteria of a hazardous waste as defined under RCRA, Title 40 CFR 261. It is the responsibility of the waste generator to determine the proper waste identification and disposal method. For disposal of unused or waste material, check with local, state and federal environmental agencies.

SECTION 14 - TRANSPORTATION INFORMATION

Regulatory Information	UN Number	Shipping Name	Class	Packing Group	Label
TDG	None	Not regulated.	Not regulated	none	\bigotimes
TDG Additional information	None.	·	i		
49CFR/DOT	None	Not regulated.	Not regulated	none	\bigotimes
49CFR/DOT Additional information	None.				

SECTION 15 - REGULATORY INFORMATION

CanadianInformation:

Canadian WHMIS Classification: This product is a WHMIS Controlled Product. It meets one or more of the criteria for a controlled product provided in Part IV of the Controlled Products Regulations (CPR). Refer to Section 1 for a WHMIS Classification for this product.

This product has been classified according to the hazard criteria of the CPR and the MSDS contains all of the information required by the CPR.

Canadian Environmental Protection Act (CEPA) information: All ingredients listed appear on the Domestic Substances List (DSL).

USFederalInformation:

TSCA: All listed ingredients appear on the Toxic Substances Control Act (TSCA) inventory.

CERCLA Reportable Quantity (RQ) (40 CFR 117.302): None reported.

SARA TITLE III: Sec. 313, Toxic Chemicals Notification, 40 CFR 372: This material is not subject to SARA notification requirements, since it does not contain any Toxic Chemical constituents above de minimus concentrations.

USStateRighttoKnowLaws:

California Proposition 65: This product contains a chemical known to the State of California to cause cancer. This product contains: Crystalline silica, quartz; Glass oxide (glass fiber).
