

# SAFETY DATA SHEET

#### 1. Identification

**Product identifier:** GE281 3TG(T)-TUBE (0.198LBS-0.090KG)

| Other means of identification<br>Synonyms:   | SILICONE SEALANT |   |  |  |
|--|------------------|---|--|--|
| Recommended use and restriction on use<br>Recommended use: Silicone Elastomer<br>Restrictions on use: Not known. |                  |   |  |  |
| Manufacturer/Importer/Distr<br>ibutor Information<br>Contact person  | :                | Momentive Amer Seal.<br>260 HUDSON RIVER RD, 12188-1910, USA<br>commercial.services@momentive.com |  |  |
| Telephone  | :                | General information<br>+1-800-295-2392  |  |  |
| Emergency telephone<br>number<br>Supplier  | :                | CHEMTREC<br>1-800-424-9300  |  |  |

#### 2. Hazard(s) identification

#### **Hazard Classification**

#### **Health Hazards**

| Skin sensitizer       |  |  |
|-----------------------|--|--|
| Toxic to reproduction |  |  |

Category 1 Category 1B

# Unknown toxicity - Health

| Acute toxicity, oral                     | 0 % |
|--|-----|
| Acute toxicity, dermal                   | 0 % |
| Acute toxicity, inhalation, vapor        | 0 % |
| Acute toxicity, inhalation, dust or mist | 0 % |

#### Label Elements

Hazard Symbol:

| Signal Word:                                     | Danger  |  |
|--|---|--|
| Hazard Statement:                                | H317; May cause an allergic skin reaction.<br>H360; May damage fertility or the unborn child.   |  |
| Precautionary<br>Statements                      |   |  |
| Prevention:                                      | Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Avoid breathing dust/fume/gas/mist/vapors/spray. Contaminated work clothing should not be allowed out of the workplace. Use personal protective equipment as required. Wear protective gloves/protective clothing/eye protection/face protection. |  |
| Response:  | Wash contaminated clothing before reuse. If skin irritation or rash occurs:<br>Get medical advice/attention. IF exposed or concerned: Get medical<br>advice/attention.  |  |
| Storage:   | Store locked up.  |  |
| Disposal:  | Dispose of contents/container to an appropriate treatment and disposal facility in accordance with applicable laws and regulations, and product characteristics at time of disposal.  |  |
| Hazard(s) not otherwise classified (HNOC):       | None.   |  |
| Substance(s) formed under the conditions of use: | Generates methanol during cure.   |  |

# 3. Composition/information on ingredients

#### Mixtures

| Chemical Identity  | CAS number | Content in percent (%)* | Notes   |
|--|------------|-------------------------|---|
| Silane, dichlorodimethyl-, reaction products with silica | 68611-44-9 | 5 - <10%                | # This substance<br>has workplace<br>exposure limit(s). |
| Distillates, petroleum, hydrotreated middle              | 64742-46-7 | 5 - <10%                | # This substance<br>has workplace<br>exposure limit(s). |
| Hexamethyldisilazane                                     | 999-97-3   | 1 - <5%                 | No data available.                                      |
| (1) TITANIUM DIOXIDE                                     | 13463-67-7 | 1 - <5%                 | # This substance<br>has workplace<br>exposure limit(s). |
| DIBUTYL TIN BIS<br>ACETYLACETONATE                       | 22673-19-4 | 0.1 - <0.3%             | # This substance<br>has workplace<br>exposure limit(s). |
| (1) Silica   | 7631-86-9  | 0.1 - <1%               | # This substance<br>has workplace<br>exposure limit(s). |
| (1) Aluminum oxide                                       | 1344-28-1  | 0.1 - <1%               | # This substance<br>has workplace<br>exposure limit(s). |

\* All concentrations are percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

(1) The respirable particle(s) listed above are inextricably bound within the polymer matrix, and therefore does not present an inhalation hazard during normal use of this product. Tooling or machining of the cured product (sanding, cutting, milling) may release hazardous, respirable substances.

| 4. First-aid measures |  |
|-----------------------|--|
| Ingestion:            | If swallowed, do NOT induce vomiting. Give a glass of water.   |
| Inhalation:           | If inhaled, remove to fresh air. If not breathing give artificial respiration using a barrier device. If breathing is difficult give oxygen. Get medical attention.      |
| Skin Contact:         | To clean from skin, remove completely with a dry cloth or paper towel, before washing with detergent and water. If skin irritation occurs: Get medical advice/attention. |
| Eye contact:          | In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.  |

#### Most important symptoms/effects, acute and delayed

SDS\_US

inventing possibilities

MOMENTIVE

| Symptoms:                                       | No data available.  |  |
|---|---|--|
| Hazards:  | No data available.  |  |
| ndication of immediate medical                  | attention and special treatment needed  |  |
| Treatment:                                      | This product reacts with moisture in the acid contents of the stomach to form methanol.   |  |
| . Fire-fighting measures                        |   |  |
| General Fire Hazards:                           | No data available.  |  |
| Suitable (and unsuitable) exting                | uishing media   |  |
| Suitable extinguishing media:                   | Use dry chemical, CO2, alcohol-resistant foam or water spray (fog).   |  |
| Unsuitable extinguishing media:                 | water jet   |  |
| Specific hazards arising from the chemical:     | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Use water spray to keep fire-exposed containers cool. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain. Reacts with water liberating small amounts of methanol. |  |
| Special protective equipment an                 | d precautions for firefighters  |  |
| Special fire fighting procedures:               | No specific fire or explosion hazard.   |  |
| Special protective equipment for fire-fighters: | Firefighters must wear NIOSH/MSHA approved positive pressure self-<br>contained breathing apparatus with full face mask and full protective<br>clothing.  |  |
| 6. Accidental release measure                   | S   |  |
|   | · · · · · · · · · · · · · · · · · · ·   |  |

| Personal precautions,<br>protective equipment and<br>emergency procedures: | Avoid contact with skin and eyes. Keep out of reach of children. Keep container tightly closed. Adequate ventilation should be provided so that exposure limits are not exceeded. Product releases methanol during application and curing.     |
|--|--|
| Methods and material for<br>containment and cleaning<br>up:                | Wipe, scrape or soak up in an inert material and put in a container for disposal. Wash walking surfaces with detergent and water to reduce slipping hazard. Wear proper protective equipment as specified in the protective equipment section. |

# 7. Handling and storage Precautions for safe handling: Sensitivity to static discharge is not expected. Methanol is formed during processing. Use only in well-ventilated areas. Do not eat, drink or smoke when using the product. Wash thoroughly after handling. See Section 8 of the SDS for Personal Protective Equipment. Conditions for safe storage, including any incompatibilities: Keep container tightly closed and dry.

#### 8. Exposure controls/personal protection

#### **Control Parameters**

#### **Occupational Exposure Limits**

| Chemical Identity   | Туре    | Exposure Limit Values                                   | Source   |

This product contains one or more substances with an occupational exposure limit. However, the respirable particle(s) of this/these substance(s) are inextricably bound within the polymer matrix. Therefore, we do not expect an exposure to this/these substance(s) during normal use of this product. Tooling or machining of the cured product (sanding, cutting, milling) may release hazardous, respirable substances.

# Appropriate Engineering<br/>ControlsEye wash facilities and emergency shower must be available when<br/>handling this product.

#### Individual protection measures, such as personal protective equipment

| General information:                | Ventilation and other forms of engineering controls are preferred for controlling exposures. Respiratory protection may be needed for non-routine or emergency situations. |
|-------------------------------------|--|
| Eye/face protection:                | Safety glasses with side shields   |
| Skin Protection<br>Hand Protection: | Use chemical-resistant, impervious gloves.   |
| Other:                              | Wear suitable protective clothing and eye/face protection.   |

| Respiratory Protection: | If inhalation exposure is expected, NIOSH/MSHA approved respiratory protection should be worn. Supplied air respirators may be required for non-routine or emergency situations. Respiratory protection must be provided in accordance with OSHA regulations (see 29CFR 1910.134).   |
|-------------------------|--|
| Hygiene measures:       | Wash hands, forearms and face thoroughly after handling chemical<br>products, before eating, smoking and using the lavatory and at the end of<br>the working period. Appropriate techniques should be used to remove<br>potentially contaminated clothing. Contaminated work clothing should not<br>be allowed out of the workplace. Wash contaminated clothing before reuse.<br>Ensure that eyewash stations and safety showers are close to the<br>workstation location. |

# 9. Physical and chemical properties

| Appearance  |                       |
|---|-----------------------|

**Disclaimer:** 

#### Notice to reader

Unless otherwise specified in section 1, Momentive products are intended for use in the manufacture and/or formulation of products and are not intended for direct consumer use. These products are not intended for long-lasting (> 30 days) implantation, injection or direct ingestion into the human body, nor for use in the manufacture of multiple use contraceptives. Keep out of the reach of children.

#### **Further Information**

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
