#### SECTION 2 - COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS#	Ingredient Percent
2-Butoxyethanol	111-76-2	0.1-1 by weight
N-butyl alcohol	71-36-3	1-5 by weight
Non-hazardous ingredients		30-60 by weight
Xylene	1330-20-7	10-30 by weight
Carbon Black	1333-86-4	0.1-1 by weight
Ethyl Benzene	100-41-4	5-10 by weight
Acetone	67-64-1	1-5 by weight
Alkyd resin	No data	1-5 by weight

### SECTION 3 - HAZARDS IDENTIFICATION

Emergency Overview: Flammable, Irritant,

Potential Health Effects:

May cause irritation. Eve: Skin: May cause irritation.

Inhalation: Prolonged or excessive inhalation may cause respiratory tract irritation.

Ingestion: Harmful if swallowed. Ingestion can cause nausea, vomiting, diarrhea

and gastrointestinal irritation.

Chronic Health Effects: Prolonged or repeated contact can result in defatting and drying of the

skin, which may result in skin irritation and dermatitis (rash). Repeated or prolonged inhalation may cause toxic effects.

Signs/Symptoms: Overexposure can cause headaches, dizziness, nausea, and vomiting.

Target Organs: Eyes. Skin. Respiratory system. Digestive system. Central nervous

system. Kidney.

Aggravation of Pre-Existing Conditions:

May aggravate pre-existing respiratory disorders, allergy, eczema, or skin conditions.

# SECTION 4 - FIRST AID MEASURES

Eve Contact: Immediately flush eyes with plenty of water for 15 to 20 minutes. Get

medical attention, if irritation or symptoms of overexposure persists.

Immediately wash skin with soap and plenty of water. Get medical attention if irritation develops or persists. Skin Contact:

If inhaled, remove to fresh air. If not breathing, give artificial respiration or give oxygen by trained personnel. Seek immediate Inhalation:

medical attention.

Inaestion: If swallowed, do NOT induce vomiting, Call a physician or poison control

center immediately. Never give anything by mouth to an unconscious

person.

Other First Aid: Due to possible aspiration into the lungs, DO NOT induce vomiting if

ingested. Provide a glass of water to dilute the material in the stomach. If vomiting occurs naturally, have the person lean forward to

reduce the risk of aspiration.

### SECTION 5 - FIRE FIGHTING MEASURES

Flammable Properties: Flammable liquid.

50°F (10°C) Flash Point

Flash Point Method: PMCC Lower Flammable/Explosive 1%

Limit:

Upper Flammable/Explosive

7%

Fire Fighting Instructions: Flammable. Cool fire-exposed containers using water spray.

Use alcohol resistant foam, carbon dioxide, dry chemical, or water fog or spray when fighting fires involving this material. Extinguishing Media:

Protective Equipment: As in any fire, wear Self-Contained Breathing Apparatus (SCBA), MSHA/NIOSH (approved or equivalent) and full protective gear.

Unusual Fire Hazards: Flammable liquid. Vapors can form an ignitable mixture with air. Vapors can flow along surfaces to a distant ignition source and flash back.

#### NFPA Ratings:

NFPA Health: NFPA Flammability: NFPA Reactivity: 0 NFPA Other: NA

#### SECTION 6 - ACCIDENTAL RELEASE MEASURES

Personnel Precautions: Use proper personal protective equipment as listed in section 8.

**Environmental Precautions:** Avoid runoff into storm sewers, ditches, and waterways.

Spill Cleanup Measures: Remove all sources of ignition. Absorb spill with inert material (e.g., dry

sand or earth), then place in a chemical waste container. Provide ventilation. Collect spill with a non-sparking tool. Place into a suitable

container for disposal.

#### SECTION 7 - HANDLING and STORAGE

Handling:

Use with adequate ventilation. Avoid breathing vapor and contact with eyes, skin and clothing. Material will accumulate static charges which may cause an electrical spark (ignition source). Use proper grounding

procedures.

Storage: Store in a cool, dry, well ventilated area away from sources of heat,

combustible materials, and incompatible substances. Keep container tightly closed when not in use.

Work Practices: To reduce potential for static discharge, bond and ground containers when transferring material.

Do not reuse containers without proper cleaning or reconditioning.

Special Handling Procedures:

Hygiene Practices: Wash thoroughly after handling. Avoid contact with eyes and skin. Avoid inhaling vapor or mist.

#### SECTION 8 - EXPOSURE CONTROLS, PERSONAL PROTECTION - EXPOSURE GUIDELINES

**Engineering Controls:** Use appropriate engineering control such as process enclosures, local

exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Good general ventilation should be sufficient to control airborne levels. Where such systems are not effective wear suitable personal protective equipment, which performs satisfactorily and meets OSHA or other recognized standards.

Consult with local procedures for selection, training, inspection and maintenance of the personal protective equipment.

Eye/Face Protection: Wear appropriate protective glasses or splash goggles as described by 29 CFR 1910.133, OSHA eye and face protection regulation, or the

European standard EN 166.

Skin Protection Description: Chemical-resistant gloves and chemical goggles, face-shield and

synthetic apron or coveralls should be used to prevent contact with

eyes, skin or clothing.

Respiratory Protection: A NIOSH approved air-purifying respirator with an organic vapor

cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air purifying respirators is limited. Use a positive pressure air supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air purifying respirators may not provide adequate

protection.

#### SECTION 12 - ECOLOGICAL INFORMATION

Ecotoxicity: No ecotoxicity data was found for the product.

Environmental Fate: No environmental information found for this product.

### SECTION 13 - DISPOSAL CONSIDERATIONS

Waste Disposal: Consult with the US EPA Guidelines listed in 40 CFR Part 261.3 for the

classifications of hazardous waste prior to disposal. Furthermore, consult with your state and local waste requirements or guidelines, if applicable, to ensure compliance. Arrange disposal in accordance to the EPA and/or state and local guidelines.

Important Disposal

DANGER! Rags, steel wool and waste soaked with this product may spontaneously catch fire if improperly discarded or stored. To avoid a spontaneous combustion fire, immediately after use, place rags, steel wool or waste in a sealed, water-filled, metal container. Do not store unused product inside the home. For disposal guidance, contact your household refuse collection service, fire department, county or state government environmental control agency.
