

INGREDIENT	WHAT IS IT?	WHAT DOES IT DO?
Calcium Carbonate	natural mineral	provides gentle abrasive action for cleaning without scratching
Sodium Carbonate Peroxide	natural mineral commonly referred to as oxygen bleach	boosts cleaning power stain removal
Hydrated Silica	natural mineral flow agent	prevents clumping of product
Decyl Glucoside	mild sugar- derived surfactant (surface active agent)	helps keep other ingredients blended while cleaning
Water	deionized/demineralized water that has passed through filters to remove minerals	holds all ingredients together in solution
Fragrance	mixture of natural, high-quality essential oils and safe synthetic fragrance ingredients	smells great and provides an aromatherapeutic experience
Sodium Carbonate	natural mineral commonly referred to as washing soda	softens water and boosts surfactants for optimum cleaning
Lavandula Angustifolia (Lavender) Oil	natural essential oil	provides fragrance
Citrus Aurantium Dulcis (Orange) Peel Oil	natural essential oil	provides fragrance and cleaning efficacy
Glycerin (Household Cleaners)	natural corn-derived solublizer for extracts	provides shelf life stability for extracts
Cocamidopropyl Betaine	plant- derived surfactant (surface active agent)	cleans and modifies foam
Sodium Silicate	natural mineral	disperses grease and food deposits into small, suspended particles that easily rinse away
