

ShockSentry™ GFCIs provide state-of-the-art, dependable electrical shock protection

In addition to being tested to the highest standards to help ensure safety, Arrow Hart GFCIs will deny power and prevent re-setting if the device is no longer able to provide safe, protected power.

**ShockSentry Ground Fault Circuit Interrupter**

Meets and exceeds 10ka Short Circuit Testing and Underwriters Laboratories (UL) 2006 UL943 Safety standards

Large visual indicator light gives quick notification of a tripped or “end of life” condition

Unbreakable nylon construction provides unsurpassed chemical and impact resistance

Ground termination with backwire clamp provides secure wiring and reduces installation time

Line side terminals are backed out and staked for fast installation

Horizontal Test/Reset button alignment provides larger unobstructed area

Additional Features and Benefits

- Tapered backwire openings handle multiple wire sizes and types for applications up to #10 AWG solid or stranded wire
- When downstream receptacles are wired from load side, a 20 amp feed-through rating offers full protection
- Test and reset buttons are color matched to provide superior aesthetics
- Longer, wider “bridge” strap provides 40% more contact area with wallboard, virtually eliminating floating installations
- Exclusive built-in wire stripper provides fast stripping of wire without tools
- Line-load miswiring protection: Shock Sentry GFCI's will not provide power downstream when wired incorrectly
- Tri-combo head terminal and mounting screws
