Material Safety Data Sheet

Ingestion is toxic and can causes severe mouth, throat and stomach burns. Seek medical attention.

Environmental Hazard See Section 12 for additional Ecological Information

3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS-No	Weight %
Water	7732-18-5	90 - 100
Hydrofluoric Acid (Hydrogen Fluoride)	7664-39-3	1.50 – 3.5
Denatonium Benzoate	3734-33-6	0.01 - 0.10

4. FIRST AID MEASURES

- General Advice Call 800.229.6036 or emergency medical service. Remove and isolate contaminated clothing and shoes.
- **Eye Contact** In case of contact with eyes, remove contacts if needed, immediately flush eyes with running water for at least 20 minutes. Get medical attention immediately.
- Skin Contact Avoid spreading material on unaffected skin. Wash off immediately with plenty of water for 15 minutes. Treat with Calcium Gluconate (2.5%) or with a over-the-counter anti-acid containing Calcium or Magnesium. Seek Medical Attention Immediately!
- Inhalation Move injured party to fresh air. Apply artificial respiration if injured party is not breathing. Administer oxygen if breathing is difficult. Get Medical Attention Immediately!
- Ingestion Do not induce vomiting. Rinse mouth. Drink large amounts of water. Several glasses of milk or several ounces of milk of magnesia may be given for soothing. Take Injured Party to a Doctor Immediately!

5. FIRE-FIGHTING MEASURES

Flammable Properties Non-combustible, substance itself does not burn but may decompose upon heating to produce corrosive and/or toxic fumes. Produces Hydrogen Fluoride Gas or Hydrogen Gas upon heating. Containers may rupture due to gas build-up when heated. Reaction with certain metals generates flammable and potentially explosive hydrogen gas.

Flash Point Not Flammable.

Suitable Extinguishing Media Use water or suitable agent for fires. Do not use solid water streams. Acid reacts with water and can splatter acid onto personnel. Care should be exercised when water is used to dilute acid. Will react with water and generate heat and fumes.

Hazardous Combustion Products

Hydrogen Gas and/or Hydrogen Fluoride Gas

Explosion Data Sensitivity to mechanical impact Sensitivity to static discharge

Not sensitive Not sensitive

Protective Equipment and Precautions for Firefighters In the event of a fire wear full protective clothing and NIOSH-approved selfcontained breathing apparatus with full face piece operated in the pressure demand or other positive pressure mode. Wear full protective clothing.

National Fire Protection Association (NFPA) Ratings: This information is intended solely for the use of individuals trained in the NFPA system.Health Hazard 3Flammability 0Stability 1Physical and Chemical Hazards WOther: Acid/ Toxic

6. ACCIDENTAL RELEASE MEASURES

Methods for Containment Always wear Personal Protective Equipment. Use sand, or pigs to dike area. Keep out of sewer

Methods for Cleaning Up Carefully neutralize with caustic soda, lime or other alkaline material. Put into approved disposal container.

Other Information Do not use metal or glass containers. Do not use metal tools for cleaning spills.

7. HANDLING AND STORAGE

HandlingAlways wear recommended Personal Protective Equipment. Do not breathe vapor or mist. Use only with
adequate ventilation. Avoid contact with skin, eyes and clothing. Do not add water to product. Care should
be taken when adding to water to prevent splattering and heat buildup.

Storage Store only in the original container. Store in cool, well-ventilated area. Do not store in metal containers.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Guidelines This product does contain a hazardous material with occupational exposure limits established by the region specific regulatory bodies. **Engineering Measures** Showers - quick-drench Eyewash stations Ventilation systems – sufficient to reduce vapor and acid mists below permissible TLV levels. **Personal Protective Equipment Eye/Face Protection** Tightly fitting safety goggles. Face-shield. **Skin and Body Protection** Wear Chemical Resistant Gloves. **Respiratory Protection** If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations When using, do not eat, drink or smoke. Regular cleaning of equipment, work area and clothing. **Hygiene Measures**

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Colorless	Odor	Acrid / Sharp Pungent
Odor Threshold	No information available	Physical State	Liquid
рН	As is < 1	Autoignition Temperature	No information available.
Flash Point	No information available.	Boiling Point/Range	212°F
Decomposition Temperature	No information available.	Explosion Limits	No information available.
Melting Point/Range	No information available.	Solubility	Water
Flammability Limits in Air	No information available.	Vapor Pressure	No data available.
Water Solubility	Complete (Weight%)	VOC Content	Not applicable.
Evaporation Rate	< 1 (Compared to: Ether)	Doutition Coofficient (n. octore	Muster) No dote evoilable
Vapor Density	No data available.	Partition Coefficient (n-octanc	n/water) no data avallable.

10. STABILITY AND REACTIVITY

Stability	Stable under recommended storage conditions
Incompatible Products	Glass, concrete and other silicone materials. Carbonates, sulfides and cyanides (yields toxic gases). Alkalies and oxides (cause violent exothermic reactions). Common metals (yield Hydrogen Gas, fire and explosive reactive hazard). Corrosive to many materials (includes leather and many organics). Water added to product yields heat and violent reaction.
Conditions to Avoid	Moisture, humidity, heat, flame, ignition sources and incompatibles.
Hazardous Decomposition Products	Emits sulfur oxide gases under fire conditions and in contact with water.
Hazardous Reactions	Reacts violently with water, metals, alkalies, oxides, carbonates, sulfides, cyanides, glass, concrete and other silicones.
Hazardous Polymerization	Hazardous polymerization will not occur.

11. TOXICOLOGICAL INFORMATION

Signs and Symptoms of Overexposure Eye, Mouth, Nasal and Mucous Membrane irritation. Burning of the skin, mottling of teeth and bones.

Acute Effects Eyes Skin Inhalation Ingestion	May cause severe conjunctiva irritation and corneal damage. May cause burns. 2% solution of hydrofluoric acid was corrosive to rabbit skin with 1 hour exposure, but not with 1 minute. May cause irritation of respiratory tract and mucous membranes. Harmful or fatal if swallowed. Ingestion may cause burns and irritation to gastrointestinal tract.		
Target Organ Effects	Bone and joints		
Chronic Toxicity	Prolonged exposure can cause bone and joint changes in humans (Fluorosis).		
Carcinogenicity	Contains no ingredient listed as a carcinogen.		
Acute Toxicity Values	Oral LD_{50} (Rat) = Not Determined Dermal LD_{50} (Rabbit) = Not Determined Inhalation LC_{50} (Rat) = Not Determined		

12. ECOLOGICAL INFORMATION

Ecotoxicity

The environmental impact of this product has not been fully investigated

13. DISPOSAL CONSIDERATIONS

Waste Disposal Method This material, as supplied, is not a hazardous waste according to Federal regulations (40 CFR 261). This material could become a hazardous waste if it is mixed with or otherwise comes in contact with a hazardous waste, if chemical additions are made to this material, or if the material is processed or otherwise altered. Consult 40 CFR 261 to determine whether the altered material is a hazardous waste. Consult the appropriate state, regional, or local regulations for additional requirements

Contaminated Packaging	Dispose of in accordance with local regulations
Containinatea r aonaging	Dispose of in accordance with local regulation

California Hazardous Waste Codes 791

This product contains one or more substances that are listed with the State of California as a hazardous waste.

Chemical Name	California Hazardous Waste Status
Hydrofluoric Acid (Hydrogen Fluoride)	Corrosive

15. REGULATORY INFORMATION Cont.

Clean Water Act

This product does not contain any substances regulated as pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42)

Clean Air Act, Section 112 Hazardous Air Pollutants (HAPs) (see 40 CFR 61)

This product does not contain any substances regulated as hazardous air pollutants (HAPS) under Section 112 of the Clean Air Act Amendments of 1990

CERCLA

This material, as supplied, does contain a substance regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). Hydrogen Fluoride (Hydrofluoric Acid) 100 lbs. There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material
