## SECTION 3 – HAZARDS IDENTIFICATION

**PRIMARY ROUTE(S) OF ENTRY**  Skin Contact  Skin Absorption  Eye Contact  Inhalation  Ingestion

**EMERGENCY OVERVIEW** DANGER! Extremely flammable aerosol. Harmful by inhalation, in contact w/ skin or when swallowed. Irritating to eyes & skin. Prolonged exposure may result in chronic effects. May result in sensitization w/ skin contact.

**EFFECTS OF OVEREXPOSURE** Inhalation: Vapors may irritate mucus membranes w/ tightness in chest, coughing, wheeziness or allergic asthma-like sensitivity. Overexposure to gases may result in light headedness, headaches or lethargy. Skin Contact: May cause localized skin irritation, redness. Eye Contact: Causes eye irritation. For its adhesive feature, foam contact w/ eyes may result in physical damage due to adhesive properties. Ingestion: Harmful if swallowed.

**MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE** None known.

## SECTION 4 – FIRST AID MEASURES

**SKIN CONTACT** Use rag to remove excess foam. Remove contaminated clothing. Remove uncured foam from skin using a delicate solvent such as acetone or mineral spirits (avoid eye contact). Hardened foam may be removed by persistent washing w/ soap & water. If irritation develops, use a delicate cream. Seek medical attention. Wash clothing separately prior to reuse.

**EYE CONTACT** Flush w/ clean water for @ least 15 minutes. Remove contact lenses if easy to do. Seek medical attention.

**INHALATION** Oxygen or artificial respiration if needed. Do not use mouth-to-mouth method if victim inhaled material. Induce artificial respiration w/ aid of a pocket mask equipped w/ a one-way valve or other proper respiratory medical device. Seek medical attention.

**INGESTION** Rinse mouth. Do not induce vomiting unless advised by medical personnel & do not use mouth-to-mouth if victim ingested material. Induce artificial respiration w/ aid of a pocket mask equipped w/ a one-way valve or other proper respiratory medical device. If swallowed, seek medical attention & show MSDS or label.

## SECTION 5 – FIRE FIGHTING MEASURES

<b>UNUSUAL FIRE &amp; EXPLOSION HAZARDS</b>	In event of fire, cool tanks w/ water spray. Move containers from fire area if can be done w/o risk. Self-contained breathing apparatus & full protective clothing must be worn.		
<b>SPECIAL FIREFIGHTING PROCEDURES</b>	Hardened foam is an organic matter & will burn in the presence of sufficient heat, oxygen & ignition source.		

## SECTION 6 – ACCIDENTAL RELEASE MEASURES

<b>PROCEDURES</b>	Eliminate ignition sources. Local authorities should be advised if significant spillage cannot be contained. Ensure adequate ventilation. Keep individuals away from & upwind of spill/leak. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces prior to entering & keep out of low areas. Do not contaminate water.

## SECTION 7 – HANDLING & STORAGE

<b>HANDLING PROCEDURES &amp; EQUIPMENT</b>	Keep away from heat, spark, open flame & other ignition sources. Protect containers from physical abuse.		
<b>STORAGE REQUIREMENTS</b>	Store in a cool, dry place. Ideal storage temperature is 40 to 78F. Storage above 104F will shorten shelf life. Protect from freezing. Protect from heat. Contents under pressure; do not puncture.		

## SECTION 8 – EXPOSURE CONTROL / PERSONAL PROTECTION

<b>RESPIRATORY</b>	Use a positive-pressure air-supplied respirator if there is any potential for an uncontrolled release. When workers are facing concentrations above the exposure limit they should use appropriate certified respirators. <u>Engineering Measures</u> : Ensure adequate ventilation, especially in confined areas. Ventilation rates should be matched to conditions.		
<b>EYEWEAR</b>	Protective eye wear; safety glasses as a minimum.		
<b>CLOTHING / GLOVES</b>	Impervious gloves & suitable work clothes; suitable protective clothing & protective gloves.		
<b>HYGENIC PRACTICES</b>	Exercise good personal hygiene, wash thoroughly after each use. When using product, do not eat, drink or smoke. Avoid contact w/ eyes & skin.
